## Welcome and Purpose

Welcome to the 2020 regional race series which will take place at 8 different venues in the region. The region is proud to be able to host such events and that can only be possible with the help of unpaid volunteers and host clubs so please be respectful when attending an event.

The purpose of the regional race series is to give a platform for riders of varying experience to step up from club level racing to wider and more competitive racing. There are beginners' classes called "Novice" which are to support riders new to the sport and "Expert" classes for the more experience riders. More information on these classes is covered later in this guide.

So please enjoy the 2020 regional race season and we hope you have fun!

## British Championships Regional Qualification

The British Championships are a club and region-based event and all competitors must be members of BC affiliated clubs in the BMX region they have qualified through.

Only open to expert riders. All expert category riders must **compete** in a minimum of 5 different East Region Series events in their primary class (20” or Cruiser) and a minimum of 3 different East Region Series events in their secondary class.

**IMPORTANT:** Once a rider has qualified at the end of the series the region will provide a number plate sticker and side plate stickers for the Brits. For those that competed in the 2019 British Championship, please remember to bring the riders front plate as this year the region will only be providing a front plate sticker & side plate stickers.

Any new riders to the 2020 expert race series wishing to ride at the Brits will need to request a plate and race shirt from the Admin team. Details to be announced during the later rounds of the series.

## Number Plates

All riders must use a plate displaying the number with which they have registered. Riders displaying a different number to that they have registered on maybe relegated to last place +2 points.

BMX East allow Regional Series riders to choose which plate they use but they must use the plate and number colour combinations specified for the class in which they are racing as given in the BC regulations.

Championship Elite White plate, black numbers      Junior Black plate, white numbers

CHALLENGE Male/Boys Yellow plate, black numbers      Female/Girls Blue plate, white numbers

CRUISER All Red plate, white numbers

Riders may use a race number which can be generated from one of the following:

- Regional Yellow plates with black regional standings numbers and the “.3” regional postscript
- Their National standing from the previous year. A rider who is riding out of the class in which the standing was achieved must be identified with an “X”.
- A current World Championship finalist may use their W1 - 8 Plate until the next World Championships.
- A current European Championship finalist may use their E1 - 8 Plate until the next European Championships. In the event of a clash of numbers, the A rider who is riding out of the class in which it was won will must be identified with an “X”
- A current British Champion may use their “01” plate until the next British Championships

- In the event of a clash of numbers, the rider who is riding out of the class in which it was won will must be identified with an “X” or as requested by Race Administration

If none of the above applies, the last three digits of the riders British Cycling membership number must be used.

Novice riders are permitted to use any plate as long as it does not clash with another rider in the class on the day.

Side plates are not mandatory in expert classes at regionals but where fitted must display the same numbers on both sides and match the number they have registered on. Same relegation rule applies for incorrectly numbered side plates.

## Transponders

The 2020 Regional Series will be using a transponder scoring system featuring MY SQORZ online race software and MyLaps transponders. Link: <https://our.sqorz.com/org/eastbmx>

All expert riders competing in our series **MUST** have an active **MyLaps Pro Chip Flex** transponder registered to each bike they compete on – Transponders cannot be shared in any circumstances at an event. Any other type of transponder is not allowed. This is the BC standard.

The South Region have made a great video of how to fit a transponder so please watch it.

<https://www.youtube.com/watch?v=3hZTwEpWrkA>

Riders must sign-in at the Admin area with their transponder fixed to their bike/bikes. Transponders will be scanned, and rider details confirmed. By having your transponder scanned and agreeing that rider details are correct the rider/parent accepts all responsibility for their rider at our event. A rider racing without a working transponder will not be scored.

## Hire Transponders

The Region has a very limited number of transponders that are for hire per event. These units can be hired at the cost of £5 per race and must be returned immediately after racing finishes. A £20 deposit must be left with race administration which will be returned to the rider when the transponder is returned

**Hire transponders remain the property of East BMX Region and any rider not returning a transponder immediately after racing faces sanctions in regard to future hire at races and non-entry to future events.**

As the number of units is limited these will be distributed on a first come - first served basis with priority being given to riders who have registered on-line prior to the event. Should there be insufficient numbers to rent then any race fees will be refunded.
